Sex Female | *Date of birth* 04/08/1989 | *Nationality* Italian

Research Fellow SSD CHIM09 (Applied pharmaceutical chemistry and technology), University of Pavia, Department of Drug Sciences

## WORK EXPERIENCE

- 2022- current **Research fellow**  
University of Pavia, Department of Drug Sciences (Italy)  
Research activities in the field of pharmaceutical nanotechnology for drug delivery and tissue engineering purposes by exploiting new emerging technologies (microfluidic and electrospinning).
- 2021-2022 **Research fellow**  
Fondazione I.R.C.C.S. Policlinico S. Matteo, U.O.C Chirurgia Generale II. Pavia (Italy)  
Supporting the research activity on the project "Digital Fluidic for the Life Sciences, P-20210028153"  
<http://www.sanmatteo.org/site/home/attivita-scientifica/articolo4857.html>
- 2020-2021 **Post-doctoral research fellow**  
University of Pavia, Department of Civil Engineering and Architecture (Italy)  
Research title: "Development and validation of a microfluidic device for biomedical applications"  
SSD CHIM09  
Supervision: Prof. Ferdinando Auricchio  
Collaboration in the project "Digital Fluidic for the Life Sciences" funded by Regione Lombardia – POR FESR 2014-2020: Call HUB Ricerca e Innovazione, 2020-2022 of Regione Lombardia nell'ecosistema salute e life science.  
<https://compmech.unipv.it/projects/ongoing-projects/dsf-project/>
- 2018 - 2020 **Post-doctoral research fellow**  
University of Pavia, Department of Drug Sciences (Italy)  
Research title: "In-vitro characterization of nanosized drug delivery systems in biological media"  
SSD CHIM09  
Supervision: Prof. Tiziana Modena
- 2019 - current **Teaching** to I level master course of EMJMD Nanomed (European Master Joint Master Degree Nanomedicine for Drug Delivery)  
University of Pavia (Italy)  
Training module: "BIOTECH AND ADVANCED THERAPY MEDICINALS: formulation development and regulatory aspects".  
Title: "Ocular drug delivery. The role of excipients" - 8 hours.  
Training module: "Industrialization of Nanosystems- Special Technique".  
Title: "Microfluidic approach to nanoparticles development as drug delivery systems" - 8 hours.
- 2019 - 2021 **Teaching** to Biotechnology course, curriculum Chem-Pharma-Tech  
University of Pavia (Italy)  
Training module: "Pharmaceutical biotechnology Laboratory" - 24 hours
- 2017 - 2018 **Post-doctoral research fellow**  
University of Pavia, Department of Drug Sciences (Italy)  
Research title: "Study of new technology for the production of polymeric and lipid nanoparticles to deliver macromolecules".  
SSD CHIM09

- 2016 - 2017 Supervision: Prof. Ida Genta  
**Technical adviser**  
 Schaefer South-East Europe S.r.L, Rovigo
- 2015 Technical advice and the installation of the NanoAssembl<sup>TM</sup> Benchtop instrumentation.  
**Visiting PhD student**  
 Aston Pharmacy School, School of Life and Health Sciences, Aston University (Birmingham, UK).  
 Project title: "Optimization of the preparation protocol for surface- modified liposomes loaded with a poorly water- soluble drug".  
 Supervision: Prof. Yvonne Perrie

## EDUCATION AND TRAINING

- 2020 - 2021 **II level master's degree in "Pharmaceutical care"**  
 EQF level 7  
 University of Pavia (Italy)  
 Pharmacy practice, pharmacy services, cognitive services, medication management, medication review.
- 2013 - 2016 **PhD degree in "Chemical and Pharmaceutical Sciences"**  
 EQF level 8  
 University of Pavia, Pavia (Italy)  
 Pharmaceutical sciences, pharmaceutical nanotechnology, pharmaceutical technology, applied pharmaceutical chemistry, molecular biology, and industrial pharmacy.
- 2008 - 2013 **Master's degree in "Medicinal chemistry and Pharmaceutical Technology"**  
 EQF level 6  
 University of Pavia, Pavia (Italy)  
 Organic and Inorganic chemistry, Biochemistry, Pharmaceutical Technology, Analytical chemistry.  
 Score: 110/110 cum laude
- 2013 **Qualified pharmacist**

## WORK ACTIVITIES

- Awards**
- 2022 - Gian Giacomo Drago e Fausta Rivera Drago award given by Istituto Lombardo Accademia di Scienze e Lettere (Milan - Italy). Award for a young researcher in the field of "Nanostructures for human healthcare".
  - 2021 - vCRS 2021 Travel Award given by Controlled release society (CRS) - Italy chapter.
  - 2019 - Nano-Day Presentation Award given by Università Milano Bicocca for the quality of the oral presentation.
  - 2017 - CRS Italy Chapter Young Scientist Travel Grant given by Controlled release society (CRS International).
- Editorial activity**
- 2022 - Guest Editor of Molecules Open Access Journal- MDPI (IF = 4.412), Special Issue "Biodegradable Natural and Synthetic Polymers for Biomedical Applications".  
<http://www.mdpi.com/journal/molecules/>
  - 2022 - Guest Editor of Frontiers in Medical Technology Special Issue "The Nanomedicine Journey from Lab to Market".  
<https://www.frontiersin.org/research-topics/32871/the-nanomedicine-journey-from-lab-to-market>
  - 2020 - Guest Editor of Polymers Open Access Journal- MDPI (IF = 4.43), Special Issue "Degradation and Biological Application of Polymers".  
[https://www.mdpi.com/journal/polymers/special\\_issues/Degradation\\_Biological\\_Application\\_Polymers](https://www.mdpi.com/journal/polymers/special_issues/Degradation_Biological_Application_Polymers)
  - Member of the Reviewer Board di Pharmaceutics, Open Access Journal- MDPI.
  - Reviewer for Pharmaceutics- MDPI, Pharmaceuticals-MDPI, Applied Science-MDPI, Materials-MDPI, Nanomaterials-MDPI, Marine Drugs- MDPI, International Journal of Molecular Sciences-MDPI, Polymers -MDPI, Journal of Nanomaterials- Hindawi
- Invited presentations**
- E. Chiesa, DEVELOPMENT OF A RAPID AND LOW-COST MICROFLUIDIC PROCESS ENABLING EFFICACIOUS AND SPECIFIC CD44 TARGETED DELIVERY BY USING HA BASED NANOPARTICLES- NANO-DAY IV, Milano Bicocca University, 11-14 December 2019.
  - E. Chiesa, PROGRAMMABLE ASSEMBLY OF POLYSACCHARIDE NANOPARTICLES IN MICROFLUIDICS AS BIOCOMPATIBLE SELECTIVE DRUG DELIVERY SYSTEM- Nanomanufacturing, Advances in Nanoparticle Production, Genova, 13 December 2019.
  - E. Chiesa, MICROFLUIDIC: A NEW TECHNOLOGICAL APPROACH FOR THE SYNTHESIS OF CD44 TARGETED HYALURONIC ACID/CHITOSAN NANOPARTICLES LOADED WITH EVEROLIMUS- 2nd NANOMED workshop, University of Patras, Patras, Greece, 8-10 July 2019.

**Grants** 2022 - 2025 "Functional Nano-Scaffolds for Regenerative Medicine" - NANOREMEDI Horizon 2020, H2020- MSCA-ITN-2020 (Marie Skłodowska-Curie Innovative Training Networks), Type of action: MSCA-ITN-EJD.  
2020 - 2022 "BIOFIBER Advanced Textured Fiber Dressing" VV3TT POC Venture Program Edition 2020, European Investment Fund CDP Cassa depositi e Prestiti.  
2020 - 2022 Integrated platform for the sustainable production of bio-based surfactants from renewable resources (BioSurf) Fondazione Cariplo - Circular Economy for a sustainable future ID 2020-1094 PI: Prof.ssa Daniela Ubiali

## PERSONAL SKILLS

---

Mother tongue(s) Italian

Other language(s) English (B1 level)

Digital skills Microsoft Office (Word, Excel, Power Point) • Graphpad Prism • Endnote • ImageJ • Statgraphic Centurion • Chemdraw

## ADDITIONAL INFORMATION

---

### Statement of Research Interests

My research is multi-disciplinary and focuses on pharmaceutical nanotechnology by developing drug delivery systems to facilitate the delivery of drugs and macromolecules (protein, siRNA, mRNA), thus providing practical solutions for current healthcare problems. In that regard, the projects I have been working on during the last years have been aimed at the production and characterization of polymer- and lipid-based nanoparticles through a suite of microfluidic systems that provide the underpinning support for these projects.

Specific research line includes:

- polymer chemical functionalization to improve the nanoparticles selectivity against cancer cells and tumor microenvironment.
- gene delivery by polymeric and lipid nanoparticles.
- understanding the effect of nanoparticles properties on cellular behaviour.
- design and application of fibrous electrospun scaffolds (made of polymer and/or new peptides-based materials) that display the structural, mechanical, and electrochemical properties needed for a specific biological context (NANOREMEDI Horizon 2020, H2020-MSCA-ITN-2020).

**Publications** total number of publications in peer-review journals: 38  
 total Impact Factor (IF) (average IF/paper): 4.77  
 total number of citations: 766  
 H index (Scopus): 14
